ABEBE MIHIRETU DEMESSA

SOFTWARE ENGINEERING GRADUATE | SOFTWARE DEVELOPMENT | IT SUPPORT

Addis Ababa, Ethiopia | +251 919 184 704 | abebemihiretu217@gmail.com
GitHub: github.com/Abex04 | Portfolio: Abebe's Property Hub

PROFESSIONAL SUMMARY

Software Engineering graduate from Addis Ababa University, Addis Ababa Institute of Technology (AAiT), with hands-on experience in software development, IT support, and technical troubleshooting. Skilled in developing web applications, diagnosing hardware and software issues, and providing practical technical assistance. A clear communicator and collaborative team player with strong analytical thinking, adaptability, and a willingness to learn. Committed to accuracy, reliability, teamwork, and continuous improvement, with the ability to contribute across technical and operational functions in a professional environment. Available to start immediately.

KEY COMPETENCIES & TECHNICAL SKILLS

Programming	Java, Python, C, C#, JavaScript, TypeScript, HTML5, CSS3, SCSS
Web Development	Angular, React, Tailwind CSS, responsive design, REST APIs, authentication and authorization
Backend & Databases	.NET, MySQL, Microsoft SQL Server, PostgreSQL, Supabase, SQL queries, schema design
IT Support	Hardware diagnosis and repair, software installation and configuration, operating-system troubleshooting, user support
Tools & Deployment	Git, GitHub, Vercel, CI/CD pipelines, technical SEO, Schema.org structured data
Security	Role-based access control, Row Level Security (RLS), secure login flows
Professional	Communication in Amharic and English, teamwork, task coordination, analytical problem-solving, adaptability

PROFESSIONAL EXPERIENCE

IT Support Specialist | Swiss Diagnostics Ethiopia

Advanced Medical Diagnostics · Addis Ababa, Ethiopia · Through 2024

- Developed, maintained, and supported software used in day-to-day organizational operations.
- Diagnosed and repaired computers, printers, and other office hardware to minimize disruption to staff.
- Installed, configured, and updated software and operating systems on staff workstations.
- Served as an initial point of contact for technical issues, from user questions to hardware failures.
- Collaborated with colleagues across departments to understand technical needs and recommend practical solutions.

Freelance IT & Software Support | Various Businesses

Addis Ababa, Ethiopia · On-call basis · Ongoing

- Provide on-call IT support to businesses, diagnosing software issues and troubleshooting computers and related hardware.
- Install software and help restore systems to working condition, as required.
- Communicate with staff to understand reported issues and confirm that problems have been resolved.

SOFTWARE DEVELOPMENT PROJECTS

Abebe's Property Hub — Full-Stack Real Estate Platform

Live and deployed · Role: Sole developer across design, development, and deployment

- Built a real-estate marketplace and administration platform for property discovery in Addis Ababa, with listing management and a secure admin area.
- Technologies: React, TypeScript, Tailwind CSS, Supabase (PostgreSQL), Vercel, CI/CD, and Schema.org.
- Implemented role-based authentication and Row Level Security (RLS), English/Amharic localization, and multi-level listing search.
- Deployed to production on Vercel and implemented technical SEO and structured data to support search indexing.

Training Management System (TMS) — Full-Stack Web Application

Qiyas Training Project · Client: github.com/Abex04/tms-client · API: github.com/Abex04/TmsApi

- Developed a system for managing training programs, courses, and trainees, with separate administrator and trainee experiences.
- Technologies: Angular, TypeScript, C#/.NET Web API, PostgreSQL, REST APIs, Git, and GitHub.
- Built secure login, role-based access, course and trainee management, and reporting features; connected the frontend, API, and database.

HealthBridge — Final-Year Project

Role: Frontend developer and team organizer · Team of five

- Contributed to the user-facing frontend of a platform connecting customers with pharmacies for at-home access.

- Used Angular, React, HTML, SCSS, Git, and GitHub; helped organize team tasks and coordinate shared code through version control.

EDUCATION

Bachelor of Science in Software Engineering
Addis Ababa University, Addis Ababa Institute of Technology (AAiT) · Addis Ababa, Ethiopia · Graduated 2025

CGPA: 3.27/4.00 | Major GPA: 3.56/4.00

Relevant coursework: Object-Oriented Programming (Java), Data Structures and Algorithms, Database Systems, Web Programming, Operating Systems, Computer Networks, Software Engineering and Design, Software Testing and Quality Assurance.

TRAINING

Full-Stack Development Training — Qiyas · May–September 2026

Full Python Course — Orange Digital Center (ODC) · 2022/23
